Objectives

1. **Synchronization of end-users into a unique coordinated platform to effectively address the requirements of other stakeholders involved in the provision of security at Major Events**

3. **Establishment of a common understanding and identification of research needs and priorities among Partners**

5. **Harmonization of national research policies**

7. **Creation of a durable structuring effect of the demand side of the European technology market**

9. **Drive the European market to be more "requirement pulled" than "technology pushed"**

11. **Elaboration of a strategic research roadmap for relevant European and national institutions**

13. **Response to EU/National research priorities**

Methodology

- **Built upon the step by step approach of EU-SEC**

- **From information exchange to joint transnational activities**

- **6 Workpackages (WPs) divided into tasks**

- **In each Task, a leader is**
  - **Entrusted with carrying out the task**
  - **In charge of organizing the work and collaborating with the other Partners**
  - **Responsible for its task implementation before the N.S.C and the Coordinator**

Deliverables and Milestones

▶ **Deliverables: concrete outputs and evidence of the work**

▶ **Good deliverables:"finished" products (e.g. a common call or a common programme, not just a workshop report)**

▶ **Milestones: key points in the process (e.g. workshop to define a joint call, publication of a joint call):**

- **Their timing can coincide with that of a deliverable**
- **There can be more milestones than deliverables**

Organisational Structure

☐ **Network Steering Committee (N.S.C)**

- **1 Representative per Partner**
- **2 Meetings per year chaired by the Coordinator**
- **Role: decision making and arbitration body of the EU-SEC II Consortium**

☐ **Secretariat (UNICRI)**

- **Management of administrative, legal, financial aspects**
- **Assistance to N.S.C**
- **Drafting of Reports**

☐ **Coordinator (*see next slide*)**
